

New Product Release

Holden V8 Intake Manifold Bolt Kits available for immediate delivery

ARP - The World Leader in Fastener Technology has just released four new intake manifold bolt kits for Holden V8 applications. These kits are nominally rated at 180,000 psi tensile strength which is substantially stronger than grade 8 hardware and offered in fourteen-piece packs to accommodate the Holden V8 engines. Available in Black Oxide 12-Point or Hex head and rust-free Stainless 12-Point or Hex head. Washers are included.

Part No.	Application
105-2001	Holden V8 Intake Manifold Bolt Kit Black Oxide Hex
105-2101	Holden V8 Intake Manifold Bolt Kit Black Oxide 12-Point
405-2001	Holden V8 Intake Manifold Bolt Kit Stainless Steel Hex
405-2101	Holden V8 Intake Manifold Bolt Kit Stainless Steel 12-Point

ARP products are available worldwide through local distributors
