New Product Release

Chrysler 273-440 Wedge 12-Point Main Bolt Kit

available for immediate delivery

Part No. 140-5002

ARP - The World Leader in Fastener Technology has just released a new High Performance Series 12-Point main bolt kit for Chrysler 273-440 Wedge applications.

Part No. 140-5002 - includes a set of ten 8740 chrome moly High Performance Series 12-Point main bolts, ten premium grade chrome moly chamfered washers and a 1/2 oz. pack of ARP Ultra-Torque fastener assembly lubricant.

ARP High Performance Series bolts are cold forged to ensure molecular integrity, heat treated prior to thread rolling and machining and nominally rated at 200,000 psi tensile strength. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's High Performance Series fastener kits.

ARP products are available worldwide through local distributors
