

## New Product Release

### ARP Piston Ring Squaring Tools available for immediate delivery

ARP's Performance R&D Division has just released six new dual size Ring Squaring tools designed to make fitting piston rings as accurate as possible. These tools are CNC machined from 6061-T6 billet aluminum tube material and Black Anodized for a brilliant finish. The bore sizes are prominently engraved for easy identification and range in size from 3.150" to 4.800" SAE and 80mm to 122mm Metric.

Part No.	Side 1		Side 2	
	mm	inch	mm	inch
902-8086	80	3.150	86	3.386
902-8793	87	3.425	93	3.661
902-9400	94	3.700	100	3.937
902-0107	101	3.976	107	4.212
902-0815	108	4.252	115	4.527
902-1622	116	4.567	122	4.800
