

New Product Release

GM Late Model M12 x 1.50 Wheel Stud Kits available for immediate delivery

ARP's Performance R&D Division has just released two new M12 x 1.50 wheel stud kits for Late Model GM applications. ARP wheel studs are manufactured from premium grade heat treated 8740 chrome moly steel, nominally rated at 190,000 psi tensile strength and cadmium plated for extra durability. These studs are able to easily handle the tremendous acceleration, shock loads and lateral forces found in racing applications. Available in both 2.000" UHL and 2.500" UHL and packaged in five-piece packs.

| Part No. | Application |
|----------|--|
| 100-7725 | GM Late Model M12 x 1.50 x 2.500" UHL Wheel Stud Kit |
| 100-7726 | GM Late Model M12 x 1.50 x 2.000" UHL Wheel Stud Kit |

ARP products are available worldwide through local distributors
