

New Product Release

Ford 7.3L PowerStroke 1994 - 2000 Rod Bolt Kit

available for immediate delivery

Part No. 250-6303

ARP's Performance R&D Division had just released a new Pro Series ARP2000[®] Rod Bolt kit for Ford 7.3L PowerStroke 1994 - 2000 applications.

Part No. 250-6303 - includes a set of sixteen ARP2000[®] Rod Bolts rated at 220,000 psi tensile strength, sixteen 7/16-20 12-Point nuts and a 1/2 oz. pack of ARP Ultra-Torque Fastener Assembly Lubricant.

ARP2000[®] material has considerably better fatigue life and the bolts are reusable as compared to the OEM Torque to Yield (TTY) rod bolts which must be replaced after each use. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's Pro Series connecting rod bolts.

ARP products are available worldwide through local distributors
