New Product Release

Ford 6.2L Boss V8 Head Stud Kit

available for immediate delivery

Part No. 255-4306

ARP the Industry Leader in Performance Fasteners has just released a new Pro Series ARP2000[®] head stud kit for Ford 6.2L Boss V8 engines.

Part No. 255-4306 - includes a set of twenty ARP2000[®] studs, one M8 bolt, twenty one parallel ground washers, twenty 8740 chrome moly 12 point nuts and a 1/2 oz. pack of ARP Ultra-Torque Fastener Assembly Lubricant.

All Pro Series ARP2000[®] studs are centerless ground, heat treated prior to thread rolling and machining, nominally rated at 220,000 psi tensile strength and are reusable as compared to the OEM Torque to Yield (TTY) head bolts. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's Pro Series head stud kits.

ARP products are available worldwide through local distributors
