

The World Leader In Fastener Technology

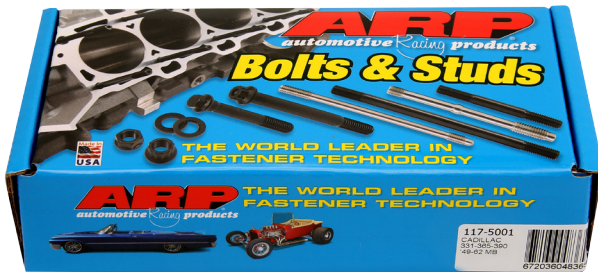

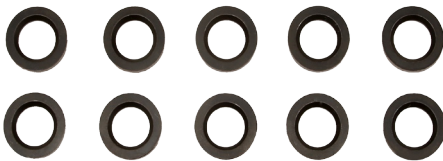

1863 Eastman Ave. Ventura, Ca. 93003 USA

## New Product Release

### 1949-1962 Cadillac 331-365-390 Main Bolt Kit

available for immediate delivery

**Part No. 117-5001**

ARP - Leading the way in Performance Fasteners has just released a new High Performance Series Hex main bolt kit for 1949-1962 Cadillac 331, 365 and 390 CID applications.

**Part No. 117-5001** - includes a set of ten premium grade chrome moly High Performance Series Hex main bolts, ten hardened and parallel ground chrome moly chamfered washers and a 1/2 oz. pack of ARP Ultra-Torque fastener assembly lubricant.

ARP High Performance Series bolts are cold forged to ensure molecular integrity, heat treated prior to thread rolling and machining and nominally rated at 180,000 psi tensile strength. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's High Performance Series fastener kits.

**ARP products are available worldwide through local distributors**
