

New Product Release

Chevy LS 55 MM UHL GM Performance Intake Manifold

Bolt Kits

available for immediate delivery

ARP - The Industry Leader in Performance Fasteners has just released four new 55 MM under head length GM Performance intake manifold bolt kits for Chevy Small Block LS applications. These bolts are nominally rated at 180,000 psi tensile strength which is substantially stronger than grade 8 hardware. Available in Chrome Moly Steel with Black Oxide finish or high strength polished Stainless Steel and choice of Hex or 12-Point head. Kits are offered in ten-piece packs with washers included.
