## New Product Release

### Toyota 2.4L 2AZFE 07 & Later Head Stud Kit

available for immediate delivery

Part No. 203-4306

ARP's Performance R&D Division has just released a new Pro Series ARP2000® head stud kit for 2007 & later Toyota 2.4L 2AZFE four cylinder applications.

**Part No. 203-4306** - includes a set of ten M11 / 7/16 ARP2000® studs, ten 8740 chrome moly 7/16-20 12 point nuts, ten parallel ground washers and a 1/2 oz. pack of ARP Ultra-Torque fastener assembly lubricant.

All Pro Series ARP2000® studs are centerless ground, heat treated prior to thread rolling and machining, nominally rated at 220,000 psi tensile strength and are reusable as compared to the OEM Torque to Yield (TTY) head bolts. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's Pro Series head stud kits.

**ARP products are available worldwide through local distributors**
