

New Product Release

Big Block Chevy AFR 18 Degree Hex and 12-Pt Head Stud Kits

available for immediate delivery

ARP - The Industry Leader in Performance Fasteners has just released two new head stud kits for Big Block Chevy AFR 18 degree applications. These kits are manufactured with premium grade 8740 chrome moly material and available with either Hex or 12-point nuts. All ARP studs are centerless ground, heat treated prior to thread rolling and machining and nominally rated at 190,000 psi tensile strength. Each kit includes a 1/2 oz. pack of ARP Ultra-Torque fastener assembly lubricant.

Part No.	Application
135-4008	Big Block Chevy AFR 18 Degree Head Stud Kit Hex
135-4305	Big Block Chevy AFR 18 Degree Head Stud Kit 12-Pt

ARP products are available worldwide through local distributors
