New Product Release

Dodge Viper SRT-10 Harmonic Damper Bolt kit
available for immediate delivery

Part no. 147-2504

ARP - The Industry Leader in Performance Fasteners has just released a new harmonic damper bolt kit for Dodge Viper SRT-10 applications. Each kit includes one 8740 chrome moly (3/4-16 x 2.200" UHL) bolt nominally rated at 190,000 psi, one chrome moly parallel ground and chamfered washer and a 1/2 oz. pack of ARP Ultra-Torque Fastener Lubricant. All ARP bolts are cold forged to ensure molecular integrity, heat treated prior to thread rolling and machining and are reusable as compared to the OEM Torque to Yield (TTY) bolts. Optimum design, enhanced reliability and increased strength are the main attributes of ARP Harmonic Damper bolt kits.

ARP products are available worldwide through local distributors
