New Product Release

VW Audi FSI / TSFI 9MM ARP2000® Rod Bolt Kit
available for immediate delivery

Part No. 204-6303

ARP - Leading the way in Performance Fastener Technology has just released a new ARP2000® connecting rod bolt kit for VW Audi FSI / TSFI 9MM applications.

Part No. 204-6303 - includes a set of eight ARP2000® 9MM cap screw style rod bolts that are nominally rated at 220,000 psi tensile strength and a 1/2 oz. pack of ARP Ultra-Torque fastener assembly lubricant.

ARP2000® material has considerably better fatigue life and the bolts are reusable as compared to the OEM Torque to Yield (TTY) rod bolts which must be replaced after each use. Optimum design, enhanced reliability and increased strength are the main attributes of ARP2000® connecting rod bolts.

ARP products are available worldwide through local distributors
