

New Product Release

Dodge Cummins 6.7L 2007 & Later With Factory Girdle Main Stud Kit

available for immediate delivery

ARP - The World Leader in Fastener Technology has just released a new ARP2000® Main Stud Kit for 2007 and later Dodge Cummins 6.7L Diesel with factory girdle applications.

Part No. 247-5405 - include a set of fourteen ARP2000® studs, fourteen chrome moly 12-Point nuts, fourteen M12 chrome moly 12-Point bolts and a 1/2 oz. pack of ARP Ultra-Torque fastener assembly lubricant.

All ARP2000® studs are centerless ground, heat treated prior to thread rolling and machining, nominally rated at 220,000 psi tensile strength and are reusable as compared to the OEM Torque to Yield (TTY) main bolts. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's Pro Series main stud kits.

ARP products are available worldwide through local distributors
