New Product Release

Honda Civic Type R and SI 2017 and up

Wheel Stud Kit

available for immediate delivery

Part No. 100-7744

ARP - The Industry leader in Fastener Technology has just released a new wheel stud kit for 2017 and up Honda Civic Type R and SI applications. ARP wheel studs are manufactured from premium grade heat treated 8740 chrome moly steel, nominally rated at 190,000 psi tensile strength and cadmium plated for extra durability. These studs have a 3" under head length for use with various brake, wheel and spacer combinations and are designed to handle the tremendous acceleration, shock loads and lateral forces found in racing and performance street applications. Packaged in 5-piece packs.

ARP products are available worldwide through local distributors
