New Product Release

Ford 6.7L Power Stroke Diesel Custom Age 625+ Head Stud Kit
available for immediate delivery

Part No. 250-4302

ARP - Leading the way in fastener technology has just released a new Custom Age 625+ head stud kit for Ford 6.7L Power Stroke Diesel applications

Part No. 250-4302 - includes a set of thirty six Custom Age 625+ studs, nine M8 ARP2000® studs, forty five chrome moly steel 12 point nuts, forty five parallel ground washers and 1 oz. pack of ARP Ultra-Torque fastener assembly lubricant.

All ARP Custom Age 625+ studs are centerless ground, heat treated prior to thread rolling and machining, nominally rated at 260,000 psi minimum tensile strength and are reusable compared to the OEM Torque to Yield (TTY) head bolts. Optimum design, enhanced reliability and increased strength are the main attributes of ARP's Custom Age 625+ head stud kits.

ARP products are available worldwide through local distributors
